Object-Oriented Data Structures in C++

Wtech & KKB Yapay Zeka Eğitimi

Ata Utku Ozkan, MSc

Research Assistant @ UNAM Institute | Cheminformatics
Türkiye

Summary

I am a computational scientist mainly working on modeling and simulating systems such as atoms and molecules based on theoretical physics and chemistry. Due to my field, my research regularly coincides with computer science related topics thus I believe I am fairly well versed in the areas of data structure algorithms, data analysis, cloud computing and high performance computing(HPC). So far I had been working in groups of researchers during my Master's study, hence I have seen and experienced the productive capabilities of associative effort as both a leader and a member. I value mathematics greatly and study it regularly in my free time as I think having a more generalized and in depth point of view in life, work and research gives way to the much required scientific creativity. Outside of my proficiency related endeavor, I brew beer, play the drums and teach/practice aikido.

Experience

UNAM Institute of Materials Science and Nanotechnology

Research Assistant

September 2019 - Present (6 years 11 months)

Ankara, Turkey

NanoMagnetism Instruments

Research And Development Intern

September 2018 - December 2018 (4 months)

Ankara, Turkey

Atomic Force microscopy calibration and sample imaging of different surface species. Worked with AFM, PRFM, MFM, Aqua AFM devices.

Aydöküm

Intern

May 2018 - July 2018 (3 months)

Ankara, Turkey

Industrial metal casting. Mainly cast iron products.

Nurol Makina

Intern

March 2017 - June 2017 (4 months)

Ankara, Turkey

Quality control.

Education

Bilkent University

Master of Science - MS, Material Science and Nanotechnology · (2019 - 2022)

TOBB Ekonomi ve Teknoloji Üniversitesi

Bachelor's degree, Materials Engineering · (2014 - 2018)

TED Ankara Koleji

Maths and Sciences · (2010 - 2014)

Bilkent Üniversitesi

Doctor of Philosophy, Materials Science

Bilkent Üniversitesi

Master of Social Science, Materials Science
